# **ACDi Services Summary**

#### **SMT Assembly**

- Rigid, Flex, Rigid-Flex
- 01005, 0201, High-Pin Count BGAs, Micro BGAs, Part On Part
- In-Line 3D AOI, X-Ray Inspection
- Conformal Coat, Underfill, Potting And Ultrasonic Welding
- BGA / QFN / Connector Removal / Replacement
- 3D Solder Paste Inspection

## **Systems Manufacturing**

- High-Mix Configurations
- Process Engineering
- Configuration Management, Serialization
- Quick Production Ramp Ups
- 100% Turnkey Solutions

#### **Engineering Services**

- Requirements and Electrical Hardware Design
- Mechanical Design
- Product Evaluation
- Sustaining Engineering
- Test Procedure
- Test Fixture Development

## **PCB Layout Services**

- High Frequency RF Designs
- High Speed Digital Designs
- Multiple Layers 26+
- Low EMI Designs For Sensitive Applications
- Stacked, Blind and Buried Vias

## **Cables and Harness Assembly**

- Complex, Smart Cables
- Ribbon, Coaxial, RF Twisted-pair, Fiber Optic
- Mil-Spec, Medical, Commercial
- Leak / Immersion Testing
- Opens-Shorts and HiPot Testing

# **Test and Integration**

- Functional Testing
- JTAG Testing
- Flying Probe Testing
- Custom Test Fixture Design
- ICT / Bed of Nails Testing

# **Supply Chain and Program Management**

- Counterfeit Prevention Program
- Order Fulfillment
- Total-Concept-Engineering / Manufacturing
- Program Management One Point Of Contact To Manage The Entire Process
